Criteria		
Your design brief will have these outlined. 1pt		
Tour design blief will have these outlined. The		
Develop Designs		
You must create at least 3 different solutions to the problem.		
Each must be sketched onto a separate piece of blank paper. 3pts		
Decide and implement		
Using the following pro/con chart, choose the design that you think will solve the		
problem the best. (Highlight the design you are choosing) <i>6pts</i>		
3, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4,		

Design 1			
	Pro	Con	
Design 2			
J	Pro	Con	
Design 3	Pro	Con	
Create plans for the design that you've chosen. These designs must be more			
detailed than your initial sketches (i.e. Show more than one side of the device, all lines made with a ruler, all measurements included) <i>3pts</i>			
Build, Test &	& Evaluate itially work? What needs to be fixed/modi	fied??nts	
Tiow did it iii	ilitally work: What needs to be fixed/filodi	116d : 2pt3	

Refine/Modify the design
What changes did you make? (Be specific) Did these changes make your device work better? Why/Why not? <i>3pts</i>
Testing
Were you satisfied with the results of the final test? If no how could you have improved your devices performance? 2pts
Follow up Each member of the group will fill out the Self and Peer Assessment form. If you
have anything to say about the group/project that can't be answered with the questionnaire include those comments at the bottom of the sheet. Be truthful with your evaluations and comments. 1pt
